A photograph of a museum platform. Three monitors are mounted on the wall, displaying various images. Below them, a person is leaning over a display case filled with small, framed photographs or documents. The word "Platform" is written in bold black text at the bottom of the image.

The four circular images illustrate the use of mobile devices in a retail setting:

- Top image:** A close-up of a handheld device displaying a colorful map or floor plan, likely used for navigation or inventory management.
- Second image:** A collection of mobile devices including a smartphone, a PDA, a rugged tablet, and a small handheld scanner, all used for various retail tasks.
- Third image:** A person using a handheld device to interact with a display of products, possibly for price checking or product information.
- Bottom image:** A close-up of a handheld device displaying a barcode, used for inventory tracking or checkout.

Note: 1. 4 different AD boards can be selectable.
2. Temper glass and touch screen can be installed.
